CHRISTOPHER COLUMBUS

In the 15th century people knew only three continents: Europe, Asia and Africa. They knew nothing about such big continents as America. A man who discovered America was born in 1451 in Italy. His name was Christopher Columbus. He became a sailor at his early age. Knowing that the earth was round, he decided to reach India sailing to the west. He tried to arrange an expedition, but didn't have any money, and nobody wanted to help him. At last the king of Spain gave him enough money for the expedition. He set sail in 1492. The voyage was very dangerous and difficult. On the 12th of October his ship reached the land. When they landed, they saw strange trees and flowers. Men and women with olive-coloured skins gathered around the sailors and looked at them with great surprise. Columbus was sure that he had discovered a new way to India. Some time later the other sailor reached America. The name of the sailor was Amerigo Vespucci. He understood that it was a new continent.
